

TO WHOM IT MAY CONCERN

John Sultana has just completed some major works for me & I found him to be very obliging & competent in the work he carried out. I had several quotes for the same job & his quote was more straight forward & easier for me to comprehend than all the others. He even suggested in doing the work in a more economical way than it was previously suggested by the authority which drew up the plans for the work to be done. I would recommend him to any one who was wanting an honest reliable business man who has excellent equipment & conscientious workers. As a widowed person it is quite scary when it comes to finding the right people to do the work that you require when one has not had any previous experience in that field. At no time did I feel any hesitation or anxiety in the time he carried out the work over a two week period
